

Lighting Options Detail

Lighting Patterns:

Each contour shown below depicts the approximate illumination pattern of each light type. The contour shown symbolizes 0.5 footcandles of light intensity, which is considered dimly lit.

54W LED Luminaire X = ~104' Y = ~ 31' (25 ft mounting height)

118W LED Luminaire X = ~160' Y = ~45' (30 ft mounting height)

219W LED Luminaire X = ~160' Y = ~78' (30 ft mounting height)

Notes:

This sheet is intended to assist customers in visualizing light patterns for various lighting options. Values and shapes listed are approximate and should not be used for detailed design.
