

Make your holidays
SHINE BRIGHTER
with **LEDs**

Save energy and money this holiday season with LEDs!

LED holiday lights can use up to 90% less energy than traditional lights and last up to ten times longer. Not only do LED holiday lights consume less electricity, they also have the following benefits:

- **Safer:** LEDs are much cooler than incandescent lights, reducing the risk of combustion or burnt fingers.
- **Sturdier:** LEDs are made with epoxy lenses, not glass, and are much more resistant to breakage.
- **Longer lasting:** The same LED string could still be in use 40 holiday seasons from now.
- **Easier to install:** Up to 25 strings of LEDs can be connected end-to-end without overloading a wall socket.

Estimated cost of electricity to light a six-foot tree for 12 hours a day for 40 days

Incandescent C-9 lights	\$10.00
LED C-9 lights	\$0.27
Incandescent Mini-lights	\$2.74
LED Mini-lights	\$0.82
