

AN ALLETE COMPANY

Fall for energy savings!

Get a **\$50 reward** for recycling your old refrigerator and a **\$30 rebate** for replacing it with a new ENERGY STAR® model.

Recycle and upgrade your old energy-wasting appliance

A 20-year-old refrigerator can use up to 1,700 kilowatt-hours of electricity every year, compared with about 450 kilowatt-hours for a similarly sized new ENERGY STAR® model. That represents an **average savings of \$150 per year.**

We'll pick up your refrigerator or freezer and make sure it's properly recycled for free.

- You'll receive **\$50 for recycling your old refrigerator or freezer.** Plus, you can get a **\$30 rebate** when you buy a new ENERGY STAR® refrigerator or freezer.
- Visit mnpower.com/refrigeratorrecycling or call **1-866-552-6755** to schedule a pick-up time.

Visit your local independent retailers to find a new refrigerator or freezer that suits your needs.
