Minnesota Power and its customers are moving *EnergyForward*

AN ALLETE COMPANY

EnergyForward

EnergyForward is our roadmap to a cleaner energy future and a balanced energy supply of one-third renewable energy, such as hydropower, one-third coal and one-third natural gas.

Our Power of One® energy conservation program plays an important role in moving EnergyForward by helping customers save energy and get the most for their energy dollars.

Thank you for saving enough energy to:

**POWER 8,000
HOMES**

**TAKE 16,000 CARS
OFF THE ROAD**

**SAVE 82,000 TONS
OF CARBON**

Note: Energy savings of 77,000,000 kWh and approximations based on 2013 conservation program results.
