In the market to buy or replace your central air conditioner?

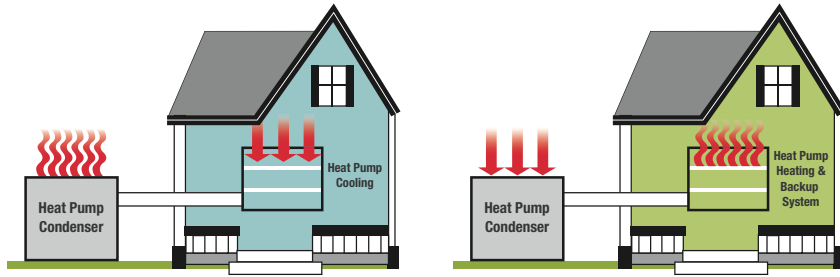

Choose an Air Source Heat Pump and get cooling AND heating in one unit!

AN ALLETE COMPANY

mnpower.com/ASHP

Keep your home cool and comfortable with an Air Source Heat Pump (ASHP)!

Why choose an ASHP over a central air conditioner?

- Provides central air conditioning in the summer and energy-efficient heat in the late fall and early spring
- Ultra-efficient cooling and heating which means cost savings for you
- ASHPs can reduce electricity use associated with heating and cooling by over 70%
- Environmentally friendly
- Ducted and ductless options
- **Minnesota Power rebates!**

Visit mnpower.com/ASHP or call 218-355-2843

Rebates available on ENERGY STAR® ASHPs

\$300 Ducted ASHP

\$500 Ductless ASHP

With electricity as primary heating source

\$500 Combo Rebate
