

## 2025 Electronically Commutated Motor (ECM) Program Overview with Participation Requirements

## **Contractors:**

- System must be installed by participating contractor.
- System must be installed by a bonded and/or licensed contractor as applicable under state and local requirements.

## Qualifying ECM Types, Applications and Related Rebates:

• **ECM Circulator Pump:** less than 1 horsepower with integrated 'smart' controls that will modulate flow based on demand. Must be EC, DC brushless, or permanent magnet style. **\$100 rebate\*** 

\*Rebate varies if commercial

## Requirements to Qualify for the Rebate and Maintain Participating Contractor Status:

- Must be a customer of Minnesota Power or a participating utility. Please visit www.mnpower.com/participatingutilities for an updated list.
- The contractor must submit the required paperwork for the customer to qualify for the rebate. Before a rebate is issued to the customer, a third party contractor will review the paperwork for quality assurance, track the results and prepare and submit the rebate check. **Note**: A product trained installer must be noted on the rebate form to verify proper installation.
- Must include a copy of the invoice with a completed rebate form.
- Rebates must be submitted within 30 days after project is completed.
- Minnesota Power rebates and required paperwork may not be withheld in the event of a customer/contractor dispute.
- Provide product warranty information and maintenance agreement.
- Participating contractors will be required to explain operational and maintenance itemsspecific to the rebated equipment as part of the installation process. This includes reviewingand providing a manufacturer specific checklist and operating manuals.
- Every customer will be surveyed to determine their satisfaction with the product (met theirexpectations) and the installation process. Any performance issues will be addressedimmediately with the applicable contractor. Performance issues will be noted and mayaffect participating contractor status.
- Minnesota Power reserves the right to verify invoices and/or installations of equipment andservices before issuing rebates. A random inspection may be required to verify installations and services.\*

\* Program subject to changes, please check www.mnpower.com/rebates for up-to-date information. Contractor specific information can be found at www.mnpower.com/HVACportal
