MINNESOTA POWER HVAC PROGRAM
**2024 COOPERATIVE ADVERTISING
REIMBURSEMENT FORM**
PROGRAM YEAR: JANUARY 2024 - DECEMBER 2024

Minnesota Power is offering cooperative advertising support to help you promote qualified HVAC products. Follow the advertising guidelines and set your company apart from the competition. Eligible media includes, but is not limited to: ad circulars, newspaper, radio, direct mail, and TV.

The reimbursement amount is based on the percentage of ad space devoted to qualified HVAC products included on the Minnesota Power rebate application. The total amount received from Minnesota Power and all other manufacturer sources combined cannot exceed 100%.

Minnesota Power will pay up to 75% of the cost of advertising dedicated to qualified HVAC products, up to a total of \$1,000 per year. Advertising dollars are limited and available on a first come, first served basis.

GUIDELINES

1. Advertising must be submitted for pre-approval. Advertising submitted for reimbursement without prior approval from the Marketing Department will not be reimbursed. Allow three (3) working days for approval.
Advertising must include:
 - The Minnesota Power logo in all print and television advertising, or the words “rebates available through Minnesota Power” in radio advertising. Directions about how to get pre-approval are on the opposite side of this form.
 - Only HVAC technologies that are rebated by Minnesota Power. For a list of these products, visit: www.mnpower.com/rebates.
2. Media that qualify for the cooperative advertising program must be based in a community that is served by Minnesota Power.
3. Funds are available on a first come, first served basis and are limited. Minnesota Power reserves the right to end or modify this program. Once funds are committed, they will not be recalled.
4. If the same ad is run in multiple publications, it does not need to be approved for each publication.
